Office Action Summary

Art Unit: 3617

***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1,4-6,19 and 20, drawn to a horizontally deployed sail, classified in class 114, subclass 107.
  - II. Claims 2, and 7-12, drawn to a vertically deployed sail, classified in class 114, subclass 104.
  - III. Claims 3 and 13-18, drawn to a sail storage device, classified in class 114, subclass 104.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as a storage device for non-batten type sails without integral means for reefing and booming. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
